Friday, October 13, 2006 ♦ Bates House*

*Formerly known as the Three Village Garden Club, Bates Road, East Setauket

1:30 pm	Poster set-up
1:55	Welcome and Introductions
2:00	Dr. Nancy Reich An Innate Defense Response Regulates Nuclear Trafficking
2:30	Dr. Janet Leatherwood Unchecked Origins: DNA Replication and Re-Replication in Fission Yeast
3:00	Dr. Huilin Li Imaging Molecular Complexes Involved in Initiation of Eukaryotic DNA Replication
3:30	Departmental Group Photograph, Poster Session and Coffee Break
4:30	Dr. Patrick Hearing Regulation of the Host Response to Virus Infection by the Adenovirus E4 ORF3 Protein
5:00	Dr. Senthil Muthuswamy Interplay Between Division and Death in Three-Dimensional Epithelial Structures
5:30	Dr. Bruce Futcher <i>To Be Announced</i>
6:00	Recognition and Awards

*DRIVING DIRECTIONS: North on Nicholls Rd. to 25A. Right (east) on 25A to Main Street (stoplight; Apple Bank on corner). North on Main, past the elementary school & library. Just past the Village Green, on the right-hand side you will see Dyke Road, along with a second smaller road that looks like a driveway. The smaller road is Bates. Follow Bates past the carriage houses, all the way to the end. There is a parking lot to your right. Since parking is limited, carpooling is strongly suggested.
