Pre-Medical Access to the Clinical Experience (PACE) 2022

PURPOSE (PLEASE READ THIS VERY CAREFULLY): The Renaissance School of Medicine at Stony Brook University's Pre-Medical Access to the Clinical Experience (PACE) is a program designed for SUNY Stony Brook University and SUNY Old Westbury College juniors, seniors or graduate students who are who are **SERIOUSLY** pursuing a career in medicine (**this program is Not for students who are pursuing the allied health professions**), have completed the core sciences, but lack the clinical and research shadowing, as well as ancillary support such as mentoring, etc. in order to create a competitive medical school application. Applicants must also have a **strong commitment** to the health care of underserved populations. Interviews will be conducted prior to acceptance into the PACE program. **PLEASE TYPE OR PRINT LEGIBLY.**

The PACE Program offers:

- Mentoring by RSOM medical students
- AMCAS Application Information
- Financial Aid Information
- Medical Student and Faculty Panels
- Mock Interviews
- Simulation Laboratory experiences
- HIPAA Certification
- Shadowing experiences with RSOM faculty in clinical and research settings
- Access to MCAT Prep materials-on-line (Critical Reasoning and MCAT Prep)

I. ELIGIBILITY

To participate in **PACE**, applicants **must** meet the following criteria:

- Junior, senior or graduate student from Stony Brook University or SUNY Old Westbury.
 - Self-identify as a pre-medical student. This program is specifically designed for pre-medical students.
 - **Cumulative and science GPA of 3.2 or higher.**
 - Must provide evidence of strong commitment to the health of underserved populations (past service experience on resume' or personal statement).
- Socially, educationally or economically disadvantaged:** A student who comes from an environment that has inhibited (but not prevented) him or her from obtaining the knowledge, skills and abilities required to enroll in, and successfully complete an undergraduate course of study that could lead to a career in medicine. This includes, but is not limited to: **First generation college students, students limited by their community** setting (rural, inner city or reservation), **students with a certified learning and/or physical disability, students from a single-parent household, students from a foster-care setting for the majority of their K-12 experience, or students who are historically underrepresented in medicine (AAMC definition).**
- Demonstrated commitment to improving the health of the underserved and disadvantaged populations:** Personal life experiences with underserved communities and/or experiences concerning disadvantaged health issues that have motivated you to pursue training in dentistry/medicine. Significant volunteer or other work for a clinic or agency serving the underserved or disadvantaged populations (local, national or international). Other experiences (e.g. specific courses taken) which have prompted you to focus on improving the health of underserved and disadvantaged populations.

I certify the information provided in this application is true to the best of my knowledge. If needed, I will supply information to document my status as a student from a disadvantaged background, or my demonstrated commitment to improving the health of underserved and disadvantaged populations.
